EXOTIC HOUSE PLANTS

COLLECTOR'S LIST E-60

[1961]

As Wholesale Growers we must depend on quantity production of popular Flowering and Foliage plants. Aside from these, we maintain a large collection of the more unusual indoor plants. Because of limited propagating stock, such Exotics are not readily available at all times, and our listings are therefore subject to supply. Specimen Plants for decorative purposes quoted on request. (See List DR)

SIZES indicated are relative and determined by growth habit:

SMALL plants generally are offshoots, divisions or rooted cuttings from 2¼" or 3" pots.

MEDIUM size are more matured plants, usually 4" or 5" pots.

LARGE size will be good sized plants and may be in 5", 6", 7" or 8" pots, or larger.
